Interim Policy on Questionnaires for Type A Water Licences

The Wek'èezhìi Land and Water Board requires a substantial amount, and high quality of, information when evaluating an application for, the renewal of, or an amendment to, a Type A water licence. In addition to standard submission requirements, the Wek'èezhìi Land and Water Board may require a proponent to provide additional information in the form of a questionnaire.

Questionnaires are a standard regulatory tool used to collect the information necessary to thoroughly evaluate a Project. Board staff will develop a specific questionnaire on a project-by-project basis to ensure that all necessary Project details have been collected. This information will enhance the ability of the Board to conduct preliminary screenings and help to expedite the regulatory review and approval process.

This policy is interim until the "Standard Procedures and Consistency" working groups of the Mackenzie Valley finalize their work on standardizing the application process.

Proponents should contact the Wek'èezhìi Land and Water Board prior to submitting information for Type A Water Licences to confirm the information requirements.

Sincerely,

A handwritten signature in black ink, appearing to read "V. C. Blondin".

Violet Camsell-Blondin
Chair, Wek'èezhìi Land and Water Board
