## Public Information Session

Tony Morris  
Regulatory Specialist  
Sahtu Land and Water  
Board  
(SLWB)

Ian Brown  
Regulatory Specialist  
Sahtu Land and Water  
Board  
(SLWB)

# Public Information Session

Today's presentation:

- Review Land Claim/Co-management system
- Roles of different Boards
- SLWB Role/Authority
- Regulatory Process
- SLWB Permits/Licences
- Enforcement/Closure
- Oil and Gas Exploration Plans
- Online Resources

# What is Co-management?

Co-management is a system that recognizes the traditional knowledge of Sahtu residents and gives them the right to participate in decision making.

In terms of the various established resource and regulatory Boards, co-management means a system of resource management that considers environmental, economic, and social concerns from Aboriginal, territorial, and federal levels of government.

Sahtu Dene and Metis  
Comprehensive Land Claim  
Agreement 1993

Mackenzie Valley Resource  
Management Act (MVRMA)  
1998

Sahtu Renewable  
Resources Board  
(SRRB)

Sahtu Land Use  
Planning Board  
(SLUPB)

Sahtu Land and  
Water Board  
(SLWB)

Members on Each Board: 50% nominated by Sahtu Secretariat  
Incorporated (SSI), 50% Government nominated. Chair of each Board  
appointed by nominated members.

Note: For more complicated or transboundary projects, assessment or regulatory approval may be done by the Mackenzie Valley Land and Water Board (MVLWB) or the Mackenzie Valley Environmental Impact Review Board (MVEIRB)

# Co-management Boards

## Roles and Responsibilities

Wildlife and Forestry		Sahtu Renewable Resources Board
Fisheries		Sahtu Renewable Resources Board
Environmental Assessment		Mackenzie Valley Environmental Impact Review Board
Water Licences		Sahtu Land and Water Board
Land Use Permits		Sahtu Land and Water Board
Land Use Planning		Sahtu Land Use Planning Board

# Surface and Subsurface Lands of the Sahtu Settlement Area

Surface rights to **39,624 square kilometres** of land, and the subsurface mineral rights to **1,813 square kilometres** of land.

On the remaining Crown Land, the Sahtu Dene and Metis have unrestricted access to hunting, fishing, and trapping. They are also entitled to consultation.

 Sahtu Surface Rights  
 Sahtu Subsurface Rights

January 28, 2011

# SLWB Role

- Regulate the use of land and water, and the deposit of waste so as to provide for the conservation, development, and utilization of land and water for the benefit of residents.
- Acts as an Administrative Tribunal for decisions by;
  - Collecting evidence (review process)
  - Seeking clarification on issues
  - Board members making decisions on applications

# Community Engagement

There are many opportunities for public involvement in land and water use decisions **before and after the SLWB is involved.**

- 1) **Land Leases:** *before SLWB involvement*
- 2) **Access/Benefits Agreements:** *before SLWB involvement*
- 3) **Permit/Licence:** *requirement of SLWB for a complete application*
- 4) **Monitoring:** *during terms of permit/licence*

# Regulatory Process

Authority is granted to the SLWB to issue, amend, renew, or cancel Land Use Permits and Water Licences on Crown, Private, and Settlement Lands.

## Land Use Permitting

- ❖ *Mackenzie Valley Resource Management Act*
- ❖ *Mackenzie Valley Land Use Regulations*

## Water Licencing

- ❖ *Northwest Territories Waters Act*
- ❖ *Northwest Territories Waters Regulations*

# Regulatory Process Continued

Phase 1: Application

Phase 2: Review

Phase 3: Decision

# Phase 1: Application

(1) Applicant acquires permission for use of land, carries out community engagement, environmental protection plan, etc

(2) Application checked for completeness

Deemed Incomplete

More information requested

Information Provided

Deemed Complete

# Phase 2: Review

## Phase 2: Review

Application sent to review organizations for comment ★

Proponent responds to comments

Preliminary Screening completed to identify environmental impacts or concerns ★

Local Hearing (If required by the Board, mandatory Type A Water Licence) ★

No concerns and no hearing

## Phase 3: Decision

★ -At these stages certain review organizations can refer the application to MVEIRB for EA.

# Review Organizations

**Distribution List depends on type of application (water or land) and district within the Sahtu. Typical list is as followed:**

- SLWB Board Members
- Deline District/Council
- Tulita District/Councils
- K'asho Got'ine District/ Councils

- SSI
- SLUPB
- SRRB
- Local Renewable Resource Councils

- MVEIRB
- MVLWB
- MACA
- ENR
- DOT
- ITI
- Department of Health and Social Services

- AANDC
- Transport Canada
- National Energy Board
- Environment Canada
- Fisheries and Oceans Canada

# Phase 3: Decision

# Application Timelines

## Land Use Permits

After receiving an application the Board has **10 days (including weekends)** to deem an application **complete**.

**42 days:** gather comments from reviewers, hold a hearing (if required), refer to MVEIRB, issue or reject the application.

## Water Licences

There are **no** timelines for dealing with water licences in the *NWT Waters Act Regulations*.

If applying for both a Land Use Permit and Water Licence together, the SLWB uses the **42 day** time period. This ensures the same start and end dates.

# Application Components

**Components of a complete application;**

- **Application Forms (Water Licence and Land Use Permit)**
- **Maps**
- **Environmental Protection Plan**
- **Public Consultation Record**
- **Traditional Environmental Knowledge Study**
- **Access rights and agreement (just signature page)**
- **Emergency Response Plan**
- **Spill Contingency Plan**
- **Waste Management Plan**
- **Equipment List**
- **Fees**

# Issuance

When the Board issues a Land Use Permit or Water Licence it includes;

- Permit or Licence (start date, expiry date)
- Terms and Conditions (what they can and cannot do, or how?)
- Reasons for Decision

## SAHTU Land & Water Board Land Use Permit

Permit Class	Type A Land Use Permit	Permit No.	S12A-001
--------------	------------------------	------------	----------

Subject to the Mackenzie Valley Land Use Regulations and the terms and conditions in this permit, authority is hereby granted to:

MGM Energy Corp.

Permittee

To proceed with the land use operation described in the application of:

Signature: Nancy Dilts	Date: April 25, 2012
Type of Land Use Operations: Oil and Gas Drilling	
Location: Drilling area located approximately 7 to 15 km south of the Hamlet of Tulita, NT.	

This permit may be assigned, extended, discontinued, suspended or cancelled pursuant to the Mackenzie Valley Land Use Regulations.

Dated at: Fort Good Hope, NWT This 24th Day of July Year 2012

Witness \_\_\_\_\_

Larry Wallace (Chairman)  
SAHTU Land & Water Board

Commencement Date: July 24, 2012 Expiry Date July 23, 2017

### NOTE

IT IS A CONDITION OF THIS PERMIT THAT THE PERMITTEE COMPLY WITH THE PROVISIONS OF THE MACKENZIE VALLEY RESOURCE MANAGEMENT ACT AND REGULATIONS AND THE TERMS AND CONDITIONS SET OUT HEREIN. A FAILURE TO COMPLY MAY RESULT IN SUSPENSION OR CANCELLATION OF THIS PERMIT BY THE BOARD.

THIS PERMIT SHALL BE POSTED OR BE AVAILABLE ON SITE.

If you have any questions please call the SAHTU Land & Water Board at (867) 598-2413

# Terms and Conditions

**Terms and Conditions are where the Board can incorporate mitigation measures or address reviewer concerns best.**

Land Use Permits, Section 26 of the <i>MVLUR</i>	Water Licences, Section 15 of the <i>NWTWA</i>
<ul style="list-style-type: none"><li>•Locations that can be used</li><li>•Times of year</li><li>•Types and size of equipment</li><li>•Methods and techniques used</li><li>•Use, handling of toxic material</li><li>•Protection of wildlife habitat and fish habitat</li><li>•Restoration of lands</li></ul>	<ul style="list-style-type: none"><li>•Manner of use of water</li><li>•Quantities and concentrations of wastes to be deposited into waters</li><li>•How waste may be deposited</li><li>•Studies to be undertaken</li><li>•Abandonment conditions</li></ul>

# Enforcement

# Closure and Reclamation

Permits stay open until site has been cleaned up or restored to a natural state.

Companies are financially responsible until the Permit is closed.

Final Clearance: (closing of the Permit) requires the inspector and the Board to agree.

Security: is money taken by the Board from the company to ensure clean up is done.

Note: (Both) means a Land Use Permit and Water Licence that are associated together. There are no expired Licences needing any further information or work.

# Oil and Gas Exploration Plans

## **Winter 2011-2012**

- Husky- 3D Seismic, drilled 2 wells.
- Explor-2D Seismic.

## **Summer 2012**

- Husky- research (water quality/quantity, wildlife, vegetation, permafrost).
- Conoco- research (similar to Husky).
- MGM- scouting for proposed winter work.

## **Winter 2012-2013**

- MGM- will drill 1 vertical well under permit S12A-001, licence S12L1-001.
- Conoco- will drill two vertical wells, surface casing for a third and 15 groundwater monitoring wells under S12A-005/S12L1-005.
- Husky- re-enter 2 vertical wells S11A-003/S11L1-003, construct all season road S12F-007/S12L8-007, and conduct a groundwater investigation program S12X-006.
- Explor- 2D Seismic, amendment to S11B-004.

**Oil and Gas Activity Map Series**

The Sahtu Land and Water Board has created a series of maps in relation to the 13 oil and gas exploration licences in the Tulita and K'asho Got'ine Districts. These maps identify which company holds each exploration licence, exploration work conducted back to 2010, as well as upcoming development for the winter of 2012-2013. These maps will be updated yearly to reflect the level of oil and gas exploration in the Sahtu. Visit the Presentations and Maps tab under Resources, or [click here](#).

**Updated Community Engagement and Board Consultation Policy**

The Land and Water Boards of the Mackenzie Valley have completed, and are pleased to present, a complete review of the draft policies and procedures related to community engagement and Board consultation under the Mackenzie Valley Resource Management Act (MVRMA).

The Board has also released the following documents: (1) *Draft Community Engagement and Board Consultation Policy*; (2) *Draft Community Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits*; and (3) *Draft Reference Material: Procedural Framework for Addressing the Adequacy of Crown Consultation*.

These documents and a reviewer's guide to key changes to the package may be found at <http://mvlwb.com/current-initiatives/working-groups>

Please send your comments to Sarah Elsasser, [selsasser@wlwb.ca](mailto:selsasser@wlwb.ca), by November 19, 2012.

 Project:  
 The Land Use permit application is being submitted in support of the remediation activities required to cleanup the abandoned Silver Bear Mines (made up of five sites that include Terra, Northrim, Norex, Graham Vein and Smallwood mine sites), the abandoned El Bonanza Mine (made up of the El Bonanza and Bonanza mine sites), abandoned Contact Lake Mine and the abandoned Sawmill Bay site. The purpose of the remediation project is to reduce the environmental impacts associated with these contaminated sites which will result in an overall positive impact on the environment.
